DR. NAUMAN NIAZ · PORTFOLIO WEBSITE

Image guide & *AI prompts*

Every image slot on the website: the exact size to export, the AI prompt to use where AI is appropriate, and which images must be real photographs.

NIAZ

30
image slots

17
AI prompts, ready to paste

1
house style for all of them

01 How to use this guide

Each AI prompt below has two parts: the **subject prompt** (what is in the picture) and the **house style** (how it looks). Paste both, in that order, into Midjourney, DALL·E / ChatGPT, Firefly, Ideogram or similar. Always add the negative prompt where the tool supports it.

Workflow

- Find the slot in the **master list** (section 03).
- If it is marked AI, copy its prompt from section 04 and add the house style.
- Set the aspect ratio in the tool (e.g. Midjourney `--ar 4:5`), then upscale or export at the listed pixel size.
- Save as **JPG or WebP, sRGB**, using the exact **file name** given.
- Upload to `public/images/` on GitHub and tell the developer; they connect it and optimise it.

Must be real photographs

- **Dr. Niaz himself**: portraits, on-set and lecture photos.
- **Real people**: guests, cricketers, guest authors.
- **Book covers**: the actual published covers.
- **Memorabilia items**: the captions name real pieces, so the photos must show those pieces.

AI images of real people, or of objects presented as genuine, would mislead visitors and can damage his credibility. Use AI only for mood and illustration, as marked.

02 House style

The site is a dark, warm, sepia editorial look with one amber accent, matching the home banner photo. Every AI image should feel like it was shot in the same studio.

#120f0c	#3a332d	#a8957f	#e7e7e9	#e8711c
deep brown-black	warm charcoal	sepia mid-tone	page grey	amber accent

HOUSE STYLE · ADD TO THE END OF EVERY PROMPT

```
cinematic editorial photograph, warm sepia monochrome colour grade, deep brown-black background (#120f0c), soft single key light from the side, subtle amber (#e8711c) rim light accent, shallow depth of field, fine film grain, quiet minimal composition with generous negative space, premium magazine quality, photorealistic, no text
```

NEGATIVE PROMPT · USE WHERE SUPPORTED

```
text, letters, numbers, captions, logos, watermarks, brand names, team crests, sponsor marks, faces, recognisable people, celebrities, hands with extra fingers, distorted anatomy, cluttered background, oversaturated colours, neon, cartoon, illustration, 3D render, plastic look, HDR halo
```

Export settings

- JPG quality 85 or WebP quality 82, sRGB.
- Under ~600 KB per file; the site re-compresses anyway.
- Keep the main subject in the centre 60%: the site crops differently on phones and desktops.
- No text in images: titles are added by the website.

Tool tips

- **Midjourney:** add `--ar 4:5 --style raw --v 7` (change the ratio per slot) and put the negatives after `--no`.
- **ChatGPT / DALL·E:** say “aspect ratio 4:5, portrait” in words and repeat “no text, no people”.
- **Firefly:** Content type Photo, Visual intensity low, and upload the home banner as a **Style reference**.

03 Master list of image slots

Size = recommended export (2× the size shown on screen, for sharp retina displays). AI AI allowed · REAL real photo required · DONE already on the site.

#	PAGE · SLOT	RATIO	EXPORT SIZE (PX)	QTY	SOURCE	FILE NAME
1	Home · hero banner, desktop	16:9	2400 × 1350	1	DONE	`desktop-banner.png`

04 AI prompts, slot by slot

Paste the subject prompt, then the house style from page 2. The shape on the left shows the frame.

4:5 · 1200 × 1500

#3 · pillar-broadcasting.jpg

Home pillar: Broadcasting

SUBJECT PROMPT

```
an empty television cricket studio at night, a curved analysis desk with two microphones, a large monitor glowing with a soft-focus green cricket field, a professional broadcast camera in the foreground slightly out of focus, studio lights hanging above, vertical portrait framing
```

Midjourney: `--ar 4:5`. Keep monitors blank or blurred, with no channel logos.

4:5 · 1200 × 1500

#4 · pillar-publications.jpg

Home pillar: Publications

SUBJECT PROMPT

```
a tall stack of old cloth-bound cricket history books with worn, blank spines on a dark walnut desk, one book open showing faded tables of figures too small to read, a fountain pen and round reading glasses beside it, dust in a beam of warm light, vertical portrait framing
```

Keep spines blank so the AI does not invent false book titles.

4:5 · 1200 × 1500

#5 · pillar-medicine.jpg

Home pillar: Medicine & Academia

SUBJECT PROMPT

```
still life on a dark desk: a stethoscope loosely coiled beside an open leather notebook with hand-drawn biomechanics sketches of a bowler's shoulder and spine, a vintage red cricket ball, a glass of water catching the light, a few medical journals stacked in soft focus behind, vertical portrait framing
```

4:5 · 1200 × 1500

#6 · pillar-memorabilia.jpg · use only if no real collection photo is ready

Home pillar: Memorabilia (illustrative)

SUBJECT PROMPT

```
macro close-up of a vintage dark-red leather cricket ball with a worn raised seam, resting on a yellowed Edwardian-era postcard with an indistinct faded ink scrawl, an antique brass magnifying glass at the edge of frame, velvet-lined display tray, vertical portrait framing
```

Replace with a real photo from his collection as soon as one exists; the card links to the real collection.

4:5 · 1200 × 1500

#9 · broadcasting-header.jpg · if no on-set photo of Dr. Niaz

Broadcasting page header

SUBJECT PROMPT

```
close detail of a professional broadcast camera lens in a dark television studio, the glass reflecting small amber studio lights, a softly blurred presenters' desk and monitors in the background, red tally light glowing on the camera, vertical portrait framing
```

16:10 · 1600 × 1000

#10 · programme-game-on-hai.jpg · placeholder until a real still

Broadcasting: Game On Hai set

SUBJECT PROMPT

```
a modern cricket analysis talk-show set before the show begins: three empty presenter chairs behind a glossy dark desk, a wide video wall showing an out-of-focus floodlit cricket stadium, warm amber accent lights along the desk edge, wide landscape framing
```

No people and no channel graphics. A real screenshot or set photo of the show is much better here.

16:10 · 1600 × 1000

#11 · programme-ptv.jpg · placeholder until a real still

Broadcasting: PTV host & analyst

SUBJECT PROMPT

```
a commentary box overlooking a floodlit cricket ground at dusk, two headsets and a microphone resting on the desk, scoresheets and a notebook, the pitch and stands softly blurred through the glass, wide landscape framing
```

4:5 · 1200 × 1500

#13 · medicine-header.jpg

Medicine & Academia page header

SUBJECT PROMPT

```
a quiet physician's consulting room in the evening: a wooden desk with a stethoscope, a blood glucose meter and an open endocrinology textbook with diagrams, framed diplomas on the wall rendered too blurred to read, a warm desk lamp, vertical portrait framing
```

Diplomas must stay unreadable: never generate fake certificates or names.

04b Insights post images (by category)

One image per article, 16:10 at 2400 × 1500. The article page shows it wider (21:9), so keep the subject in the **middle horizontal band**. Swap the bracketed part to fit each article's topic.

16:10 · 2400 × 1500

#14 · Cricket

Cricket opinion pieces

SUBJECT PROMPT

```
[a fast bowler's worn run-up marks and footholes on a dusty cricket pitch at golden hour], three stumps and bails in soft focus at the far end, long shadows across the turf, low camera angle, wide landscape framing
```

Other ideas: a new ball on fresh grass at dawn; a lone bat leaning on an empty pavilion bench; floodlights coming on over an empty ground.

16:10 · 2400 × 1500

#15 · History

History and archive pieces

SUBJECT PROMPT

```
[an open antique cricket scorebook with faded handwritten columns], loose sepia photographs with curled edges scattered beside it, a brass magnifying glass, archive boxes on shelves blurred behind, overhead three-quarter angle, wide landscape framing
```

16:10 · 2400 × 1500

#16 · Medicine

Medicine and sports-science pieces

SUBJECT PROMPT

```
[a dressing-room physio table with rolls of athletic tape, an ice pack and a stethoscope], cricket pads and a helmet resting on a bench in soft focus behind, clean clinical side light, wide landscape framing
```

For diabetes or endocrinology articles: a glucose meter, a plate of balanced food and a notebook of readings on a dark table.

16:10 · 2400 × 1500

#17 · Guest

Guest columns

SUBJECT PROMPT

```
an empty wooden dressing-room bench with a folded cricket cap, a pair of batting gloves and a bat leaning against the wall, sunlight falling through a high window, nostalgic and quiet, wide landscape framing
```

Optionally use the guest author's real photo instead.

04c Conversations, museum & sharing

16:9 · 1280 × 720

#20 · episode-bg.jpg (thumbnail template)

Episode thumbnail background

SUBJECT PROMPT

```
a dark intimate podcast studio, two leather armchairs angled towards each other, two broadcast microphones on boom arms, a low table with a cricket ball and two glasses, warm amber lamp light, the left 45 percent of the frame kept dark and empty for text, wide landscape framing
```

Final thumbnails (#21): place the guest's **real** cut-out photo on the right, and add the episode title on the empty left in Canva or Photoshop.

1:1 · 3000 × 3000

#23 · podcast-cover.jpg

Podcast cover art background

SUBJECT PROMPT

```
a single vintage studio microphone in the centre, a red cricket ball
resting at its base, dramatic overhead spotlight, deep brown-black
background with an amber glow behind the microphone, the top third
of the frame empty for the series title, square framing
```

Add the series name and “with Dr. Nauman Niaz” as text afterwards. Spotify and Apple need 3000 × 3000 JPG.

21:9 · 2520 × 1080

#26 · museum-band.jpg

“Visit the museum” band

SUBJECT PROMPT

```
a dim, elegant museum gallery of glass display cases holding
indistinct antique sporting objects, warm spotlights pooling on dark
wooden floors, long perspective down the hall, very wide panoramic
framing, the left half darker for overlaid text
```

1.91:1 · 1200 × 630

#27 · og-bg.jpg

Social share image background

SUBJECT PROMPT

```
extreme macro of the raised stitched seam of a dark-red leather
cricket ball, placed on the right third of the frame, sharp
highlight on the stitches falling off into deep shadow, the left two
thirds smooth dark gradient for text, wide landscape framing
```

The page title is added on top by the developer. One background can serve every page.

16:9 · 2400 × 1350

#28 · contact-bg.jpg (optional)

Contact page background

SUBJECT PROMPT

```
a writing desk by a window at dusk, a fountain pen resting on cream
letter paper beside a sealed envelope, a cricket ball used as a
paperweight, soft warm lamp light, wide landscape framing
```

05 Real photo checklist

These cannot be generated. Shoot or collect them, export at the listed size, and upload with the file name shown.

SLOT	WHAT TO SUPPLY	SIZE	SHOOTING / EDITING NOTES
#8 About portrait	A second portrait in a real setting: studio, clinic or library	1600 × 2000 (4:5)	Different from the home banner. Apply the same warm sepia grade so the pages match.
#29 Press headshots	3–4 approved headshots for journalists	2400 × 3000 (4:5)	Plain background; one colour, one sepia, one landscape crop.
#9–11 Broadcasting stills	Photos or screen-grabs of him on set: PTV studio, Game On Hai, commentary box	1600 × 1000 (16:10)	Make sure PTV allows reuse. Avoid channel logos unless permission is given.
#12 Book covers	Front cover of each book (19 in total)	1000 × 1500 (2:3)	Flat, straight-on scans or the publisher's cover files, with no shadows. These feed the book wheel.
#7, #24–25 Memorabilia	8–12 standout items with a one-line caption each (what, whose, year)	1200 × 1600 tall, 1600 × 1200 wide	Dark cloth or velvet background, one soft side light, shot square-on. Mix tall and wide frames. Captions approved by Dr. Niaz.
#19, #22 People	Guest and guest-author photos	800 × 800 (1:1)	Ask each guest for a photo they own the rights to.
#21 Episode thumbnails	Final thumbnail per episode	1280 × 720 (16:9)	Background #20 + real guest cut-out + title text. Same file as the YouTube thumbnail.
#30 Showreel poster	A frame from his best broadcast clip	1920 × 1080 (16:9)	Only if broadcast footage can be republished.

Uploading

- Upload page: `github.com/Rajwara/Dr-Numan-/upload/claude/determined-hypatia-1fja1q/public/images`
- Use the file names in this guide, all lower-case, with hyphens and no spaces.
- Send the developer a short note listing what was uploaded.

Matching the look

- For real photos, apply a warm sepia grade (Lightroom: saturation −70, warm white balance, slight fade in the blacks) so they sit with the AI images.
- Keep backgrounds dark and uncluttered.
- Keep the subject centred: every slot is cropped slightly differently on phones.
